SUBCHAPTER 21. OKLAHOMA RECREATIONAL TRAILS PROGRAM AND THE BOATING INFRASTRUCTURE GRANTS PROGRAM

725:15-21-1. Purpose

The purpose of the Oklahoma Recreational Trails Program (RTP) is to expend monies funded through the US Department of Transportation. This fund created a federal trails assistance program specifically earmarked for trail construction and rehabilitation. The Boating Infrastructure Grants Program (BIG) is to expend monies funded through the US Fish and Wildlife Service for support of non-trailerable boating opportunities.

725:15-21-2. Eligibility

(a) Applications for trail / boating projects will be accepted from:

- (1) City and county governments;
- (2) State agencies (including divisions of the Oklahoma Tourism and Recreation Department "OTRD");
- (3) Other governmental bodies created under state law (i.e. river authorities, planning districts);
- (4) Federal land managers (i.e. U.S. Forest Service, Corps of Engineers);
- (5) 501(c)(3) organizations, other 501(c)'s will be considered on a case by case basis (i.e. trail user groups, conservation clubs) Letter of Recognition of Exemption from the Internal Revenue Service is required in addition to a stated public purpose regarding land) however such organizations are not eligible for BIG; and
- (6) Other private organizations eligible as partners, but not sponsors.

(b) Only one entity will be considered the sponsor of any proposal. Even though projects are encouraged through the scoring system to be undertaken as partnerships, the sponsor for the project will be the one who signs the project application, is responsible to account for the costs incurred, and will receive the reimbursements.

(c) All applications from governmental agencies must include documented approval of the current director or chief administrative officer. If the landowner is different from the sponsor, application must include documentation of the owner's willingness to allow the trail.

(d) It is the intent of the RTP/ BIG that moneys made available through this fund are to be used on trails, boating and trail-related projects which have been planned and developed under existing federal and state laws, policies, and administrative procedures. It is also necessary that the project furthers a goal of the Statewide Comprehensive Outdoor Recreation Plan (SCORP). The Project Priority Scoring System includes criteria which further SCORP goals.

725:15-21-3. Reimbursement procedures

(a) The program is a reimbursement-type grant program. Project sponsors will apply to the Department for funding of specific trail/ boating projects. The Department will select projects to receive funding and obtain approval from the Federal Highway Administration (FHWA) or the US Fish and Wildlife Service (USFWS) as applicable.

(b) After a project agreement is executed between the sponsor and the Department, the sponsor may initiate the project's proposed work elements, spending from their own funds and submitting reimbursement requests to the Department.

(c) The Department will reimburse the sponsors of projects selected for funding for the allowable percent of the project's total cost provided:

- (1) The costs are for allowable expenditures as outlined in the sponsor's application and approved in the Project Agreement signed by the Department and the sponsor, and
- (2) Sponsor supplies adequate documentation that fully accounts for both out-of-pocket expenditures and any donated labor, land, or materials and that certifies that the expenditures have been incurred on the project.

(d) Sponsors may submit reimbursement to the Department on an interim basis by submitting receipts and other documentation of expenditures and work undertaken provided the sum of the reimbursement totals at least five thousand dollars (\$5,000). If the entire project cost is below five thousand dollars (\$5,000), only one reimbursement will be accepted. After processing the reimbursement, OTRD will make a payment to the sponsor for the allowable percent of the amount submitted.

(e) Interim reimbursements may be made up to eighty percent (80%) of the federal grant amount for RTP and up to seventy-five percent (75%) for the BIG. The remaining twenty (20) or twenty-five (25) percent of the grant amount respectively will be released after the Department has performed an inspection of the project, which shows all elements of the project to be in substantial compliance.

725:15-21-4. Limitations on grant awards

(a) Size of awards.

- (1) The Department will limit the maximum amount granted to any single sponsor per project in one application period based on the amount of funds received during any such period.
- (2) Each State Park shall be considered a separate sponsor.

(b) Number of projects per sponsor.

- (1) Applicants may submit more than one project. However, the total amount granted for each individual project may not exceed the ceiling.
- (2) As mentioned under OAC 725:15-21-2, the sponsor is the applicant, not the partner who may be the land manager. When one sponsor wishes to submit more than one project, separate applications should be submitted when projects are not located at the same site. An exception to this rule would involve the allowance of a single application for RTP trail work of a similar nature on a system of trails in one jurisdiction. For example, a city may submit one application proposing drainage improvements to all trails in its area, even though the trails are not connected and are located at various sites around town.

(c) 30%-30%-40% reserved funds for RTP.

(1) The federal act outlines a formula for state grant spending (after funds for administration and education are set aside). Not less than thirty percent (30%) of the funds shall be reserved for uses related to motorized trail recreation, and not less than thirty percent (30%) shall be reserved for uses related to non-motorized trail recreation. The remaining forty percent (40%) is discretionary for "diversified" trail use that gives preference to project proposals which:

- (A) Provide for the greatest number of compatible recreational trail purposes, or
- (B) Provide for innovative recreational trail corridor sharing to accommodate motorized and non-motorized recreational trail use.

(2) The Department will interpret the discretionary category for RTP as meeting either the greatest number of uses or innovative motorized/non-motorized sharing.

(d) Allowable project costs.

(1) Approved projects. The grant recipient may only initiate activities to undertake the approved scope of work after receipt of a fully executed Project Agreement. This includes not taking title to lands or easements that are included in the project costs. The sponsor will not be reimbursed for project costs incurred prior to the date of the signed Agreement. The RTP does not allow application preparation, site design, and other pre-application costs to be recovered retroactively.

(2) Allowable costs. Donations from the private sector (land for the RTP, materials, or labor for RTP and BIG) may only be attributed to the sponsor's match. Sponsors may not make a profit by being reimbursed

beyond their out-of-pocket costs. Private donations which exceed the federal share simply serve to reduce the overall cost of a project.

(3) Allowable project costs. Project sponsors may be reimbursed for, but not limited to, the following items

- (A) Acquisition of fee title land or easement (RTP only):
- (B) Service contracts:
- (C) Direct labor costs (hired workers, current staff, force account):
- (D) Materials (purchased):
- (E) Equipment rental:
- (F) Purchase of trail hand tools and equipment (total not to exceed \$1500 for RTP only):
- (G) Design, engineering and architectural services (not to exceed 20% of total project costs):
- (H) Natural and cultural resource surveys/clearances (if required):
- (I) Appraised value of donated land or easement (RTP):
- (J) Value of donated service contracts (including volunteer labor):
- (K) Value of donated materials or contribution of materials on hand:
- (L) Rental value if donated equipment: and
- (M) Any of the reimbursable costs which are paid for by cash donations or sponsor's appropriations (to account for the required match).

725:15-21-5. Procedures for submission and review of project applications

- (a) Submission. Project applicants shall submit the Project application digitally to the Department with the applicable support documentation. The project applications will be reviewed for completeness prior to being scored and ranked.
- (b) Selection. A Project Priority Scoring System will be used to score and rank projects for the RTP and the BIG programs. The projects which accumulate the highest scores will receive grant assistance up to the available amount. The Department will maintain the Oklahoma Trails Advisory Board (OTAB) in accordance with the federal RTP legislation. The OTAB reviews and scores projects and makes recommendations for funding.
- (c) Approval process. Recommendations of projects to be funded will be presented to OTRD for approval. Project applicants will receive approval or disapproval in writing. Projects receiving approval will be included in Department's application to the FHWA or the USFWS. Upon receipt of FHWA or USFWS approval, applicants will receive a Project Agreement to execute.
- (d) Resubmission. Sponsors whose projects are not selected and approved for funding may resubmit their proposals for consideration in the next cycle by notifying Department prior to the deadline which has been set for that cycle. Sponsors may wish to modify their proposals to give them a better chance of achieving a higher score. If proposals are modified, sponsors must supply updated materials along with their request to be reconsidered. Sponsors may resubmit an unmodified project no more than twice. If any previously funded projects have not been completed at the time of any new project submittal, the sponsor or the managing entity (if several sponsors fall under the same managing entity) will be penalized through the Project Priority Scoring System.

725:15-21-6. Acquisition policies and procedures-RTP only

- (a) Means of acquisition. Acquisition of land or interests therein (easements, leases, or other legal interests) may be accomplished through purchase, transfer, donation, or a combination of these methods. When the acquisition is proposed by donation, the nature of any restriction on the use of the area or condition of donation will be examined to ensure that it is compatible with the purpose of the project. Only the value of land donations from private landowners may qualify as a match for all or a portion of the local matching share.

(b) Property subject to continuing use provision, section 6(f)(3). The RTP allows states to decide if they wish to apply Section 6(f)(3) of the Land and Water Conservation Fund Act. Oklahoma has chosen to apply this provision only to acquisition of fee simple property. This provision assures that once an area is protected by 6(f)(3), it will be continually maintained in public recreation use unless property of reasonably equivalent usefulness of at least equal fair market value is substituted and the substitution is approved, in advance, by the Department.

(c) Acquisition of less than fee simple property-- RTP only.

(1) The RTP requires that easements be pursued as a priority; acquisition of fee simple title may occur only when an easement is not feasible. Sponsors requesting funds for trails on private property are required to have an acceptable formal written agreement giving the public access to the trail for a minimum of twenty (20) years. Property with less than fee simple interest (usually an easement, lease or license) will only be eligible for fund support if it meets all of the following requirements:

(A) Sponsor has (or will have) legal control of the surface rights that are relevant to trail use, and any rights retained by the owner are not incompatible with trail use; and

(B) The term of the easement, lease or license may not be less than twenty years; and

(C) The easement, lease or license cannot be revocable at will by the grantor.

(2) Prior to the submission of an application involving property with less than fee simple title, it is suggested that the sponsor contact the Department to discuss program requirements. The sponsor should submit a copy of the draft legal document for Departmental approval prior to its execution to ensure eligibility and avoid unnecessary delays. The draft agreement should include a boundary map, project area metes and bounds (if possible), and a letter from the lessor indicating a willingness to enter into the agreement when the project is approved.

(d) Reservations and rights not acquired. Reservations and rights held by others are permissible only if it is determined that the outdoor recreation activities and environment would not be adversely affected by conditions such as the holding of mineral rights, property liens, easements, etc. The applicant shall list all outstanding rights or interests held by others on the boundary map. Sponsors may be asked to explain how these outstanding rights are to be dealt with to assure that the outdoor recreation interests and the environment will not be adversely affected.

(e) Acquisitions involving compatible use. Non-recreation uses such as timber management, grazing mineral extraction, and other natural resource uses may be carried out within the project area only if they are:

(1) Clearly described in the project application; and

(2) Compatible and secondary to outdoor recreation use. The sponsor should contact the Department prior to any action which would cause the fund-assisted area to be converted to other than outdoor recreation uses.

(f) Acquisitions which will not be assisted. The following acquisitions will not be assisted:

(1) Lands which are already within the public domain and can currently be utilized for outdoor recreation.

(2) Land acquisitions which occur prior to grant approval or Department's authorization. Consequently, the value of land already owned by the project sponsor cannot be used as the sponsor's local match.

(3) Private land from an unwilling seller.

(g) Scheduling. When proposing the acquisition of land or real property, it is not appropriate to negotiate a price prior to grant and appraisal approval by the Department. Sponsors may, however, contact the landowner to determine if the land is available for acquisition to determine if the donor is willing to donate, sell, or partially donate the subject property. Please be advised that negotiations of a price prior to grant and appraisal approval may jeopardize the eligibility of the proposed acquisition for grant assistance.

725:15-21-7. Construction policies and procedures

(a) Construction projects. RTP construction projects may consist of new trail development, restoration, rehabilitation, or maintenance, and development of related support facilities at trailheads or alongside trails. BIG projects may include docks, restrooms, wavebrakes and other development that serves the transient boater and must serve the general public and further a specific goal of the Oklahoma Statewide Comprehensive Outdoor

Recreation Plan (SCORP), plus any applicable local or regional plans. In order to encourage and support the RTP/ BIG, sponsors must also erect a sign at the project site which designates the project as a product of the National Recreational Trails Fund Act or the Boating Infrastructure Grants program as applicable. This sign may be attached to existing park or facility signs at the project site or included on signs to be constructed as part of the project. The sign should state "National Recreational Trails Program" and should be included in the cost estimate for the project.

(b) Barrier-free access. Sponsors are encouraged to make all elements proposed in the project accessible to users who are physically and/or mentally disabled. All development including, parking facilities, and restrooms developed with grant assistance must be fully accessible. To the greatest extent possible, within reasonable cost, trails intended for use by pedestrians should be accessible to people using wheelchairs, whether manual or motorized. Projects in developed areas should place particular emphasis on accessibility. Sponsors will need to justify why it is not feasible to make trails fully accessible.

(c) Scheduling. On-the-ground construction shall begin no later than twelve (12) months after the Department, by official notification, has approved the project plans and specifications. Any project sponsor who is unable to comply shall notify the Department in writing, at least thirty (30) days before the twelve (12) month period has lapsed, stating the reason(s) why and requesting a time extension. All projects must be accomplished within two (2) years or less unless the Department approves a time extension. Construction which occurs prior to grant approval and Department's authorization will not be eligible for reimbursement.

(d) Inspections. Three (3) inspections will be conducted throughout the life of the project. They are as follows:

- (1) a pre-inspection before the project begins;
- (2) a fifty percent (50%) inspection to evaluate progress; and
- (3) a post-inspection when the project is complete.

(e) Compliance. All federal laws apply. Development projects approved to receive federal funds must meet federal contract compliance requirements. These requirements include, but are not limited to:

- (1) Equal Opportunity Clause (41 CFR 60-1.4);
- (2) Nonsegregated Facilities Statement (41 CFR 60-1.8);
- (3) Notice of Requirement for Affirmative Action (41 CFR 60-4.2)
- (4) Standard Federal Equal Employment Opportunity Specifications (41 CFR 60-4.3);
- (5) Acknowledgment that federal funds are being utilized;
- (6) Facility designs must be in accordance with the Architectural Barriers Act of 1968 (Public Law 90-480 as amended through 1978), and the Americans With Disabilities Act (ADA) (Public Law 101-336, 1990);
- (7) Flood Disaster Protection Act of 1973 (P.L. 93-234);
- (8) Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646);
- (9) Management of Real Property (49 CFR 18.31, 49 CFR 19.32): and
- (10) Management of Equipment (49 CFR 18.32, 49 CFR 19.34).

725:30-18-3. McGee Creek Natural Scenic Recreation Area - McGee Creek State Park

(a) The Natural Scenic Recreation Area is a unique 8,900 acre natural recreational resource authorized by Congress as a feature of the McGee Creek Project. The Natural Scenic Recreation Area was formulated, through a public involvement process, based on four concepts:

- (1) a quiet water zone,
- (2) a wilderness-type recreational experience,
- (3) non-motorized activities, and
- (4) preservation of natural and cultural resources.

(b) In compliance with environmental resource use regulations as defined by the United States Department of Interior, Bureau of Reclamation, the following interim rules shall apply to the McGee Creek Natural Scenic Recreation Area of McGee Creek State Park:

(1) **Access to the Natural Scenic Recreation Area.** Access to the Natural Scenic Recreation Area is authorized by Permit only and available at the entrance station and park office. The purpose of the Permit system is to minimize environmental impacts in the Natural Scenic Recreation Area. Permit issuance is based upon the number of persons individually or in a group until the maximum daily limit is reached. The maximum daily limit may be adjusted based upon the changes in the number of miles of designated trails, updated user group ratio data, and/or adjustments in response to the results of the ongoing monitoring program, including user surveys. Maintenance of trails by the different user types is considered in setting the maximum daily limit. Permits are issued for each user type and are not transferable or interchangeable.

(A) The following table defines maximum daily limits (users/mile/day):

(B) The Department has the discretion to temporarily restrict use within the Natural Scenic Recreation Area under certain circumstances such as severe weather conditions, high fire danger, trail maintenance, special events and other approved uses.

(2) **Day use permits.** Half (½) of the full day permits may be reserved up to ninety (90) days in advance. Half-day permits are issued on a first-come, first served basis only. Any reserved Permit not picked up by 10:00 a.m. of the date of issue will be released for use by others unless previous arrangements have been made.

(3) **Overnight camping.** Camping in the Natural Scenic Recreation Area will be by Permit only and be restricted to specified areas. When the Permit is issued, users will be provided with a map of the Natural Scenic Recreation Area indicating the location of their reserved/assigned camp area for each night of their stay. Users shall park their vehicles in a secured parking area at the Natural Scenic Recreation Area entrance and enter the Natural Scenic Recreation Area from the trail-head access only. The camper maximum daily limit will indicate the maximum number of campers allowed throughout the Natural Scenic Recreation Area at any given time. Half (50%) of the daily camping permits may be reserved up to ninety (90) days in advance. The remaining camping permits shall be issued on a first-come, first-served basis up to the maximum daily limit. Individual party size shall be limited to a maximum of twelve (12) persons per campsite for sanitary reasons. Camping permits not picked up by the opening of business of the second day of the Permit may be released for others to use. Persons arriving after the close of business hours shall camp in the McGee Creek State Park camping areas and obtain the Permit the next day. The maximum length of stay for each Permit is four (4) days, beginning with sunup of the day the Permit is issued and ending at sunset of the last day. Camping permits may be renewed depending on availability, and only if the camper maximum daily limit has not been reached.

(4) **Water access permits.** Permits for water access for hiking and camping shall be permitted in accordance with (2) and (3) of this subsection. Some campsites may be designated for water access users only. Vessels may be anchored, tied to shore, or carried to the campsite for storage. Construction of racks or bars for dry storing of vessels is prohibited. Use of internal combustion engines within the quiet zone is prohibited. Electric motors, paddles, poles, or sails are allowed.

(5) **Equestrian Permit** Permits for equestrian access shall be permitted in accordance with (2) and (3) of this subsection. Some campsites may be designated for equestrian users only. Horses tethered to trees or structures are prohibited. Hobbles or ground tying is prohibited. Use of feed bags and picket lines are required adjacent to the designated camping area. Horses shall be kept in the campsite only as long as it takes to unpack or pack them. Users shall not be allowed to turn their horses loose to graze. Horses shall not be left unattended for more than a few hours. Stallions are prohibited. Since all trails open to equestrian use will be multi-use, horse droppings shall be dispersed off the trails. Horse droppings at the

camp sites shall be buried. Tying up horses overnight within one hundred (100) yards of any body of water or creek is prohibited.

(6) Multi-use trails.

(A) With the limited number of miles of trails available, all groups shall be required to use the main trails. Equestrians shall be limited to logging roads or trails designated for equestrian use only. Bicyclists may be allowed on designated trails that are appropriate for their use. The remainder of the trails shall be restricted to hikers only. Any additional proposed trails shall be mapped and their use approved by the Bureau of Reclamation before they are opened. National accepted trail etiquette will apply to the Natural Scenic Recreation Area and any other guidelines posted at the trail head.

(B) Trail signage shall consist of painted blazes on trees and routed wood signs. The blazes shall be color coded by U.S. Forest Service Standards to indicate which user type can access that trail. The blaze shall be located at eye level to a hiker and, if possible, spaced so as to be in sight of the next marker. Routed wood signs shall be kept to the absolute minimum needed to identify junctions and campsites. These and other types of signs and their locations shall be submitted for approval by the Bureau of Reclamation.

(7) Fire. The use of wood fires shall be restricted to fire pans or fire blankets. Fire rings or pits are prohibited. Natural deadfall will be the only source material. Cutting of standing trees or large logs is prohibited. No axes or other large cutting implements shall be allowed into the area except for maintenance by Department staff and assignees. Campers entering the area shall be required to show that they have in their possession a fire pan, fire blanket, or backpackers stove before they are allowed to proceed. Ash and other residue from the fire will be disposed of as follows: large chunks of unburned wood will be buried; debris will be removed from the ash and packed out; ash will be dispersed outside the camp area over as much ground as possible. Disposal of ash within 100 yards of any body of water or creek is prohibited.

(8) Disposal of human waste. Disposal of human waste shall be accomplished by the use of cat holes. Every camper entering the area shall be required to have (or share) a small hand shovel for this purpose. Digging cat holes within 50 feet of any campsite or 100 yards from a body of water, creek or spring is prohibited. Large group latrines or pits are prohibited.

(9) Llamas. Until an in-depth study of llama activity can be conducted, llamas will be treated as pack animals. Restrictions set forth in (5) of this subsection shall apply to llamas.

(10) Quiet water zone. An internal combustion engine in the zone is prohibited. Electric motors shall be allowed and there will be no limit to the number of vessels accessing the zone. Any boater wanting to access the land portion of the Natural Scenic Recreation Area, other than the immediate shoreline area, shall be required to get a Permit before entering the quiet water zone. Signage stating the rules shall be posted at the junction of the Permit station road, the Grassy Hollow access road, the Grassy Hollow boat ramp, and the start of the quiet water zone which is defined by floating signs.

(11) Special events. Permitting of a limited number of periodic special large group events (except on holiday weekends) will be considered on a case-by-case basis.

(12) Natural Scenic Recreation Area restrictions. In addition to the restrictions and prohibitions set forth in (1)-(11) of this subsection the following prohibitions shall apply to the Natural Scenic Recreation Area:

- (A) The use of motorized vehicles except emergency and maintenance vehicles.
- (B) Development and construction unless authorized by the Bureau of Reclamation.
- (C) Trace backpacking rules.
- (D) Access to the Ferndale Bog area without prior authorization of the Manager and Director with concurrence of the Bureau of Reclamation.
- (E) Pets of any kind except horse and pack animals.
- (F) Using any area except designated trails and camping areas.
- (G) Removal of artifacts and plants.

(13) West Buffer Zone. The 1,200 acre portion of the Natural Scenic Recreation Area west of the McGee Creek is jointly managed by the Department and the Oklahoma Department of Wildlife Conservation in accordance with a Memorandum of Understanding dated September 14, 1987. All use and development within the 1,200 acres is subject to the same Natural Scenic Recreation Area

environmental quality concepts previously discussed. No trails will be developed within the 1,200 acre area for the interim operating plan. Accordingly, only wilderness type hunting will be allowed initially with access by Permit only from the Wildlife Management Area. Appropriate signs will be posted to identify the area and notify users of applicable rules and regulations. Although no Maximum Daily Limit limits are included in the initial interim operating plan (the maximum daily use to date has been 6 hunters), the use levels and associated impacts will be informally monitored. If necessary, a hunter Maximum Daily Limit may be established prior to implementation of the final Resource Management Plan.

(14) **Natural Scenic Recreation Area rules.** All rules defined in this Chapter shall apply to the Natural Scenic Recreation area.
